 <!-- Main Heading -->
  <h1> Git Process </h1>
  <a href="#video"> Video Link @ the bottom of the page</a>
   This web page gives you a comprehensive introduction to GitHub. 
  <!-- Description of work flow -->
  <div>
   <h2> <span> Basic </span> Tasks </h2>
   Create Git remote repository using Git account 
     Clone Git repository to your local 
     Use Git to add file into local 
     Modify files and use Git to commit change 
     Use Git to push the commit to remote 
     Use Git to pull (sync) content with remote 
   <h2> Commands used </h2>
   git init 
     git remote add origin https://.... 
     git add --all 
     <span> git commit -m 'commit message' </span>
```

```
git push origin master 
    </div>
